About iGi Partners :

iGi Partners imported Holacracy from the United States for distribution in France and Europe (French and English). It is one of 3 companies around the world to be able to provide Holacracy services. Its team's skills and talents serve organisations so that they can take advantage of this new form of governance that is adapted to the 21st century. iGi Partners' purpose is a "PowerShift enabled by Excellence in Holacracy" to provide state-of-the-art training, support and coaching on this managerial technology. IGI Partners are constantly perfecting their work, notably by applying Holacracy in their own structure for over six years.

PowerShift by Holacracy® Serious Game?

For the:

- Implementation of Holacracy at Scarabée, the Biocoop network in Rennes with 4 department stores, 3 restaurants, 1 caterer and 1 culinary laboratory
- Release of the book "Holacracy" by Brian Robertson

The 21st century is calling into question the pyramid organisation and managers. No more Taylorism, it's time for innovation so that organisations can gain newfound flexibility and performances.

In this context, Holacracy is arousing curiosity and questions: Can an organisation really work without a boss? Does Holacracy eliminate all forms of hierarchy? Is the circle structure compatible with large organisations? Does it work for employees to have several roles rather than a job description? Is this American invention compatible with European culture? And how do you spell Holacracy, what are its roots? In a word, is it a "Serious Game"?

It is time to open up the debate, to listen to those people who apply, test and apply this form of governance in their organisations. IGI Partners invite you to come and discuss Holacracy, the social technology that everyone is talking about.
