

iGi Partners

L'Excellence en Holacracy®

Curriculum Vitae

**Bernard Marie
Chiquet**
**entrepreneur, CEO,
consultant & trainer**
#organizations

During more than twenty years, Bernard Marie Chiquet was an entrepreneur (President and Founder of Eurexpert Consulting Cabinet) and Director of large companies (Executive Director at CAPGEMINI, Senior Partner at Ernst & Young, President, President of Gedas, Volkswagen group's subsidiary).

This expert in organizations left the business world in 2005 because all the organizational systems that he had experienced and observed were not adaptive and often inhuman. Looking for other methods and better ways, he developed his skills in mediation (CAP'M), executive coaching (HEC), collective intelligence (JF Nouvel), etc. and founded iGi Partners in order to share his knowledge with organizations.

In 2010, he discovered Holacracy® and decided to focus on this new Management which seems to answer the problems, that he had experienced in companies, in a sustainable way. He is now a certified Master Coach (first one in Europe), the highest degree of certification in Holacracy.

Current Situation

Bernard Marie is actively working at iGi Partners, the company he founded in 2007 (www.igipartners.com/en). He helps organizations to become more agile and fast and proposes trainings on Holacracy, a new managerial technology.
